

Proceedings of the 21st International Diatom Symposium

MATTHEW L. JULIUS & MARK B. EDLUND (EDS)

- 5 **The 21st International Diatom Symposium**
 MATTHEW L. JULIUS & MARK B. EDLUND
- 6 **A brief history of the International Diatom Symposium**
 MARK B. EDLUND & NORMAN A. ANDRESEN
- 10 **Minnesota diatomists: The first 150 years**
 MARK B. EDLUND & EUGENE F. STOERMER
- 22 ***Gato hyalinus* gen. et sp. nov., an unusual araphid tube-dwelling diatom from Western Pacific and Caribbean islands**
 CHRISTOPHER S. LOBBAN & J. NELSON NAVARRO
- 32 ***Encyonema droseraphilum* sp. nov. (Bacillariophyta) and other rare diatoms from undisturbed floating-mat fens in the northern Rocky Mountains, USA**
 LOREN BAHLS, JOHN PIERCE, RANDY APFELBECK & LOIS OLSEN
- 49 **Three new *Psammothidium* species from lakes of Olympic and Cascade Mountains in Washington State, USA**
 MIHAELA D. ENACHE, MARINA POTAPOVA, RICH SHEIBLEY & PATRICK MORAN
- 58 ***Encyonema hamsherae*, a new diatom species from the Northern Rocky Mountains, USA**
 DIANE WINTER & LOREN BAHLS
- 66 ***Stephanodiscus* Ehr. species in Holocene sediments from the Faiyum Depression (Middle Egypt)**
 R. J. FLOWER, K. KEATINGS, M. HAMDAN & F. HASSAN
- 81 **Morphology of some fossil lacustrine centric species from the western USA assigned to the genus *Cyclotella* (Bacillariophyta), including four described as new**
 J. P. KOCIOLEK & G. K. KHURSEVICH
- 100 **Morphological features and new description of the fossil species *Thalassiosira dolmatovae* (Bacillariophyceae)**
 ANDREY GLADENKOV
- 103 **Why is *Synedra berolinensis* so hard to classify? More on monotypic taxa**
 DAVID M. WILLIAMS
- 128 **Preliminary Report on the Late Pleistocene and Holocene Diatoms of Swamp Lake, Yosemite National Park, California, USA**
 SCOTT W. STARRATT & R. SCOTT ANDERSON
- 150 **Recent changes in abundance and cell size of pelagic diatoms in the North American Great Lakes**
 EUAN D. REAVIE & RICHARD P. BARBIERO

- 163 **Water Quality and Wet Season Diatom Assemblage Characteristics from the Tamiami Trail Pilot Swales Sites (Everglades National Park, Florida, USA)**
ANDREW J. BRAMBURGER, JAY W. MUNYON & EVELYN E. GAISER
- 183 **Investigation of evolutionary effects on the relative frequency of sexual reproduction in freshwater diatoms**
VIRGINIA M. CARD & MEEGEN CARRA
- 190 **A review of past and recent research on Cretaceous silicoflagellates**
KEVIN McCARTNEY
- 201 **MIDTAL (Microarrays for the Detection of Toxic Algae)**
LINDA K. MEDLIN, MARINA MONTRESOR, EDNA GRANELI, BEATRIX REUGERA, ROBIN RAINE,
BENTE EDVARDSSEN, JANE LEWIS, CHRIS ELLIOTT, YOLANDA PAZOS, & LUCIE MARANDA
