Furuki (1991) elevated *Riccardia* subgen. *Lobatiriccardia* Mizutani & Hattori (1957: 38) to genus level as *Lobatiriccardia* (Mizutani & Hattori 1957) Furuki (1991: 319). At the same time he transferred *Aneura alterniloba* (Hooker & Taylor 1844: 572) Taylor in Gottsche *et al.* (1846: 469) to his new genus. A molecular phylogenetic study confirmed this treatment (Preussing *et al.* 2010). However, two recently recognized varieties from Australia and a species from New Zealand were not transferred as they do not occur in the area treated by the monograph (Furuki 1991). They are transferred as follows:

1. Citation of specimens in G should preferably use the barcode (M. Price, pers. comm.) but for comparability the numbers printed on the specimen, which have often been cited by previous authors, are also given here in square brackets.
