Erratum for “Two new species of *Eugenia* (Myrtaceae) from Central Amazonia, Brazil”

MARIA ANÁLIA DUARTE DE SOUZA¹

¹*Departamento de Botânica, Universidade Federal do Amazonas, Manaus, Brazil (analia.duarte@yahoo.com.br)*

When publishing *Eugenia ramosii* M.A.D.Souza & Scudeller (2016:170) we overlooked the preexistence of this name for an Asian species, and here we present the necessary correction for valid publication of the species. We are indebted to Augusto Giaretta (Universidade de São Paulo, Brazil) for gently calling our attention for this error.

Eugenia joseramosii M.A.D.Souza & Scudeller, *nom. nov.* Type:—BRAZIL. Amazonas: mun. Manaus, Reserva Florestal Adolpho Ducke, 02°53' S, 59°58' W, 23 November 1995, *J.E.L.S. Ribeiro et al. 1767* (holotype: INPA!; isotypes: G!, K!, MBM!, MG!, SEL!, SP!, U!, UEC!). Replacing name for *Eugenia ramosii* M.A.D.Souza & Scudeller, *Phytotaxa* 289: 170. 2016, *nom. illeg.*, not *E. ramosii* C.B.Robinson, *Philippine Journal of Sciences C*, 4: 349. 1909 (= *Syzygium ramosii* (C.B.Rob.) Merrill, *Philippine Journal of Sciences* 79: 411. 1951).
