Manawaduge, C.G., Yakandawala, D. & Les, D.H. (2016) Morphometric analysis reveals a new species of *Aponogeton* (Aponogetonaceae) in Sri Lanka. *Phytotaxa* 275 (3): 243–262.

In our paper entitled “Morphometric analysis reveals a new species of *Aponogeton* (Aponogetonaceae) in Sri Lanka” (*Phytotaxa* 275 (3): 243–262) we incorrectly cited (p. 251 & 252) the acronym of The National Herbarium, Peradeniya, Sri Lanka as:

PDN

It should be:

PDA

Accordingly, the Type details of *Aponogeton dassanayakei* should be:

Type:—SRI LANKA. Western Province: Kalutara, Ittapana Thotupola-South End, (Ittapane–Horawala Thotupola Road), elev. 3 m, 08° 23.910' N / 80° 4.067' E, 15 February 2015, Manawaduge & Yakandawala 215. (Holotype: PDA!).

Thanks to Dr Samuli Lehtonen, Editorial team, *Phytotaxa*, for pointing out this error.
