

<https://doi.org/10.11646/phytotaxa.397.4.4>

**Fidan, M. (2019) *Bellevalia sasonii* (Asparagaceae): a new species from Turkey. *Phytotaxa* 394 (2): 126–132.**

The recent publication of the named *Bellevalia sasonii* Fidan (2019: 127) omitted a reference to the holotype, therefore rendering the publication not valid per Article 40.7 of the ICN (2018). To rectify this situation, the name is validly published here with the omitted information:

Please note the *Bellevalia sasonii* Fidan, *sp. nov.* (Fidan 2019, Figs. 1–3) on page 127:

**Description published in Fidan (2019: 127).**

*Bellevalia sasonii* Fidan, *sp. nov.* (Figs. 1–3)

Type:—TURKEY. B8 Batman: Sason country Karameşe village road 1. km, 38°17'48.29"N, 41°19'53.97"E, forest clearance, 733 m, 11 April 2017, M Fidan 3012.

**Should read:**

*Bellevalia sasonii* Fidan, *sp. nov.* (Figs. 1–3)

Type:—TURKEY. B8 Batman: Sason country Karameşe village road 1. km, 38°17'48.29"N, 41°19'53.97"E, forest clearance, 733 m, 11 April 2017, M Fidan 3012 (holotype SUFAF; isotype VANF).
