KIRAN GANGADHAR CHAKRAL, SUCHANDRA RANJIT DUTTA, HENSAL RODRIGUES & MAYANK DWIVEDI (2024) Revisionary insights into the genus *Ledebouria* (Asparagaceae) from India. *Phytotaxa* 641 (1): 1–21.

Note that in this publication the type cited for the name *Ledebouria hyacinthina* var. *obtusata* does not have a herbarium cited for the holotype. There is merely repetition of the collection number. The isotypes cited bear different collection numbers. This error makes the name invalid.

The correct citation of the type is as follows:

Ledebouria hyacinthina var. *obtusata* S.R.Dutta, Chakral & H.Rodrigues

Type:—INDIA. Maharashtra, Palghar, Takmak, Chakral, S.R.Dutta & H.Rodrigues, 15 June 2021, *SHK0015* (Holotype: CAL!; Isotype: BLAT!, RDNCP!).
